CONTENTS OF VOLUME 414

July 1989

AL-AMOOD W.S. & LEWIS D.M. A comparison of the effects of denervation on the mechanical properties of rat and guinea-pig skeletal muscle. 1

MACDONALD J.F., MODY I. & SALTER M.W. Regulation of *N*-methyl-D-aspartate receptors revealed by intracellular dialysis of murine neurones in culture. 17

DAY Timothy J., LAGERLUND Terrence D. & LOW Phillip A. Analysis of H_2 clearance curves used to measure blood flow in rat sciatic nerve. 35

HUNZIKER E.B. & SCHENK R.K. Physiological mechanisms adopted by chondrocytes in regulating longitudinal bone growth in rats. 55

HABARA Yoshiaki Suppression of secretagogue-induced amylase secretion in pancreatic acini of cold-exposed rats. 73

CHEN Bing & MAKOUS Walter Light capture by human cones. 89

MATSUDA Hiroko & STANFIELD P.R. Single inwardly rectifying potassium channels in cultured muscle cells from rat and mouse. 111

KIMURA Fumitaka, NISHIGORI Ayahiko, SHIROKAWA Tetsuya & TSUMOTO Tadaharu Long-term potentiation and *N*-methyl-D-aspartate receptors in the visual cortex of young rats. 125

ASHBY P. & WIENS M. Reciprocal inhibition following lesions of the spinal cord in man. 145

GONOI Tohru, HAGIHARA Yashiro, KOBAYASHI Jun'ichi, NAKAMURA Hideshi & OHIZUMI Yasushi Geographutoxin-sensitive and insensitive sodium currents in mouse skeletal muscle developing *in situ*. 159

CULL-CANDY Stuart G., MARSHALL Cameron, G. & OGDEN David Voltage-activated membrane currents in rat cerebellar granule neurones. 179

LINDGREN Clark A. & MOORE John W. Indentification of ionic currents at presynaptic nerve endings of the lizard. 201

LEE B.B., MARTIN P.R. & VALBERG A. Sensitivity of macaque retinal ganglion cells to chromatic and luminance flicker. 223

LEE B.B., MARTIN P.R. & VALBERG A. Amplitude and phase of responses of macaque retinal ganglion cells to flickering stimuli. 245

HOUNSGAARD Jørn & KIEHN Ole Serotonin-induced bistability of turtle motoneurones caused by a nifedipine-sensitive calcium plateau potential. 265

AGUAYO Luis G. Post-natal development of K^+ currents studied in isolated rat pineal cells. 283

PECK Carol K. Visual responses of neurones in cat superior colliculus in relation to fixation of targets. 301

ANDREASEN Mogens, LAMBERT John D.C. & JENSEN Morten Skovgaard Effects of new non-*N*-methyl-D-aspartate antagonists on synaptic transmission in the *in vitro* rat hippocampus. 317

HICKS Audrey & MCCOMAS Alan J. Increased sodium pump activity following repetitive stimulation of rat soleus muscles. 337

DEVRIES S.H. & SCHWARTZ E.A. Modulation of an electrical synapse between solitary pairs of catfish horizontal cells by dopamine and second messengers. 351

FERRELL William R. & KHOSHBATEN Ali Adrenoceptor profile of blood vessels in the knee joint of the rabbit. 377

FRENKEL E.J., GRAZIANI M. & SCHATZMANN H.J. ATP requirement of the sodium-dependent magnesium extrusion from human red blood cells. 385

FRYER Martin W., LAMB Graham D. & NEERING Ian R. The action of ryanodine on rat fast and slow intact skeletal muscles. 399

BROWN P.D., ELLIOTT A.C. & LAU K.R. Indirect evidence for the presence of non-specific anion channels in rabbit mandibular salivary gland acinar cells. 415

ALPERT Norman R., BLANCHARD Edward M. & MULIERI Louis A. Tension-independent heat in rabbit papillary muscle. 433

KITAKAZE Masafumi & MARBAN Eduardo Cellular mechanism of the modulation of contractile function by coronary perfusion pressure in ferret hearts. 455

HEATHCOTE R. David Acetylcholine-gated and chloride conductance channel expression in rat muscle membrane. 473

BEUCKELMANN D.J. & WIER W.G. Sodium–calcium exchange in guinea-pig cardiac cells: exchange current and changes in intracellular Ca^{2+}. 499

GREGORY J.E., IGGO A., MCINTYRE A.K. & PROSKE U. Responses of electroreceptors in the snout of the echidna. 521

FURUYA S., OHMORI H., SHIGEMOTO T. & SUGIYAMA H. Intracellular calcium mobilization triggered by a glutamate receptor in rat cultured hippocampal cells. 539

NIGGLI Ernst Strontium-induced creep currents associated with tonic contractions in cardiac myocytes isolated from guinea-pigs. 549

MCDONALD Terence, PELZER Dieter & TRAUTWEIN Wolfgang Dual action (stimulation, inhibition) of D600 on contractility and calcium channels in guinea-pig and cat heart cells. 569

COULTER Douglas A., HUGUENARD John R. & PRINCE David A. Calcium currents in rat thalamocortical relay neurones: kinetic properties of the transient, low-threshold current. 587

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

10–11 *February* 1989

Royal College of Surgeons Meeting

DEMONSTRATIONS

Patrick J.M. & Western P.J. 'Respitrace' monitoring of ventilation pattern in unrestrained ambulant human subjects. 2*P*

Matthews H.R. A self-emptying bubble trap. 3*P*

Noakes D., Ward J.P.T. & Watson P.F. An electrode system for long-term monitoring of ionic concentrations for use in the uterus of sheep. 4*P*

Mollon J.D. & Reffin J.P. A computer-controlled colour vision test that combines the principles of Chibret and of Stilling. 5*P*

Chatamra K. & Proctor E. Measurements of liver blood flow in acute liver damage in the anaesthetized rat using hydrogen clearance. 6*P*

Busza A.L., Fuller B.J. & Proctor E. Application of ^{31}P-NMR spectroscopy to the study of metabolism during cold preservation and perfusion of the isolated rat liver. 7*P*

COMMUNICATIONS

Edgley S.A., Eyre J.A., Lemon R.N. & Miller J.S.G. Direct activation of corticospinal neurones by electromagnetic stimulation in anaesthetized and conscious monkeys. 8*P*

Eyre J.A., Gibson M., Koh T.H.H.G., Miller S., O'Sullivan M.C. & Ramesh V. Corticospinal transmission excited by electromagnetic stimulation of the brain is impaired in children with spastic hemiparesis but normal in those with quadriparesis. 9*P*

Barrett G., Cole J.D., Sedgwick E.M. & Towell A.D. Passive movement-related cortical potentials with and without feedback in man. 10*P*

Barrett G., Cole J.D., Sedgwick E.M. & Towell A.D. Active and passive movement-related cortical potentials in man with a large-fibre sensory neuropathy. 11*P*

Iles J.F. Spatial facilitation from the motor cortex of D_1 and D_2 inhibition in the human soleus. 12*P*

Day B.L., Marsden C.D. & Rothwell J.C. Contrasting effects of muscle stretch on the response to magnetic and electric cortical stimulation in man. 13*P*

Day B.L., Marsden C.D., Rothwell J.C., Thompson P.D. & Ugawa Y. An investigation of the EMG silent period following stimulation of the brain in normal man. 14*P*

Kirkwood P.A. & Sears T.A. Dual descending pathways to inspiratory motoneurones in the anaesthetized cat. 15*P*

Llinás R., Mühlethaler M. & Walton K. Electrophysiology of the isolated adult guinea-pig brain *in vitro*. 16*P*
